### JUMPED THE TRACK.

The mail train from the north this morning was nearly two hours late because of an accident late Sunday night to the New York express between Essex Junction and Fort Ethan Allen.

The train, which was due to leave Burlington for New York at 10:00 p. m., jumped the track just beyond the "State line crossing," so-called, at the easternmost portion of the government reservation at Fort Ethan Allen. Not a person aboard the train was injured. The place where the accident occurred is about two miles west of Essex Junction. It was caused by the heavy rain of Sunday evening washing the sand and gravel over the track at the crossing which is at the entrance of a cut.

Every one of the four cars left the rails as did also the tender and the engine with the exception of the latter's forward trucks. Engineer Barrett promptly set the air brakes and the sudden stopping of the train caused thereby, while the engine was pushed over the ties, created for the time a scene of much confusion. With a few exceptions everyone kept cool. In the passenger cars the ladies clung tightly to their seats and their coolness and presence of mind accounts for their immunity from injury. The combination baggage and smoker, the second car from the engine, broke away from the main car ahead and tipped nearly over on its left side. In this car the men climbed to the upper sides and clung to the seats until the terrible jolting ceased. One man, who pushed up the window half way and was through the narrow aperture in an instant. The others succeeded in opening the door and made their way out in a more quiet manner. When all were out there were eager inquiries as to whether anyone was injured and when it was found that no one had a scratch to show, much satisfaction was expressed.

### THE EXPOSITIONS.

October the Time of Largest Visitation. Go to Alcazar Hotel.

The paid admission during Oct. to the three great Expositions, viz: Philadelphia, Chicago and Omaha, were 32.3 per cent of the whole attendance during the six months of their continuance. Out of a grand total of 30,432,171 (paid) 9,849,165 visited those Expositions during the last month of their continuance. The above statement proves conclusively that the season when it is far easier to secure parties to make up excursions or to go singly to the Pan-American Exposition, is just now being entered upon.

If you haven't anything more desirable to do, get up a party to go to the greatest existing show on earth. Good terms for exhibiting are arranged at the Alcazar Hotel. Correspond with the proprietor for terms, conditions, etc. Address, Alcazar Hotel Co., Buffalo, N. Y. There will be inducements to any organizer of a party, large or small.

The night view from the Alcazar alone should satisfy any one that this feature is worth the price of rooms, and when is added the money, time and labor saved by being at the exposition, it is more than half the visitors leave the Exposition grounds to take the cars, it can rightfully be claimed that the Alcazar has no competitor in any other locality.

Vermonters who have stopped at the Alcazar, whose proprietor, Mr. Johnson, is a Vermontor, speak in high praise of its accommodations.

### LETTER TO EDWARD D. HYDE

(Montpelier, Vt.)

Dear Sir:—If you want your paint to last as long as that of other house-owners in your town is going to last, you should use lead and zinc.

You can mix your own, or buy Devos, as you like. The results will not be the same, however. Devos lead and zinc is ground in oil and thoroughly mixed. When it is done it is hard-work can't compete with machine-work, either in cost or thoroughness. Mixing by hand is imperfect mixing; and zinc is peculiarly hard to mix; wants grinding.

Lead and oil is honest paint; but less durable. Lead is tender and zinc is tough. The proper mixture ground together is much better than either alone. French painters use zinc alone; but American painters think it is too hard, and mix it with lead.

Yours truly,  
F. W. DEVOS & Co.  
Abbott & Bailey sell our paints in your section.

### MR. STONE IN THE PHILIPPINES.

Recent letters from Manila state that Hon. Mason S. Stone was recalled to that city from Negros, during the absence of Dr. David Barrows, city superintendent of schools, and is temporarily in charge of the educational affairs of the city. A better position than he has at Negros has been offered Mr. Stone, which he declined in order to carry on his work in the latter island with his New England assistants, and because he would be better physically there than in the place in question. Of the climate he says with enthusiasm, "It is glorious here and I wish you were here to enjoy it."

August 23, the educational army arrived "and it seemed quite American." In the bunch was an old lady of seventy or thereabouts. Mr. Stone takes with him to Negros the delegations from Maine, New Hampshire and Vermont, nearly all of that from Maine, and a few others. He has "the entire outfit of eight from Bowdoin, Bates, Colby, Dartmouth, Williams, Amherst, Tufts, University of Vermont and Middlebury College, and half of Harvard and Boston University. Mr. Stone seems to be feeling well and is greatly interested in his work, which is needless to remark to his friends in Vermont.

### MAJOR H. S. FOSTER.

This gallant officer of the Twelfth United States Infantry arrived in Montpelier Friday night, direct from the Philippines. Major Foster was called home by the illness of his father, who resides in North Calais. Major Foster, then a captain, was ordered to Manila with his regiment in February, 1898. He has been much active and efficient service but appears to be in vigorous health and has been extremely blessed in escaping contact with Filipino natives or diseases. Major Foster expresses great delight in being again in his country. It is quite likely that before his leave of absence expires his regiment will have returned, and he will be under orders to return, and in that event he will not go back to the Philippines. Calais has sent many good soldiers into the service of the country and she has to her credit many commissioned officers, of whom Major Foster is a fine example. The Major's friends here give him a welcome of sincere cordiality.

### DISHONORABLY DISCHARGED

The case of Private Peter J. Devine, Troop 11, Eleventh cavalry, who was tried by a general court martial at Fort Ethan Allen, on the charge of "using disrespectful words against the President of the United States in violation of the 19th article of war," has just been reported to the war department at Washington. It appears from the opinion that when the news of the shooting of President McKinley was received at Fort Ethan Allen Devine expressed great satisfaction over the crime and applied an once ornamentary epistle to the late President. His comrades roughly handled him before he could be secured in the guard house. He was found guilty of the charge by the court and sentenced to be dishonorably discharged from the service of the United States, forfeiting all pay and allowances due him and to be confined at hard labor for a year.

The record of the case having been referred to Maj. General Brooke at New York, commanding the department of the east, he is inclined to say as follows: "It is the word of the reviewing authority that the punishment for the flagrant act the prisoner was found to have committed is not sufficient within the power of the reviewing authority to increase the punishment, but in order that the prisoner may not wholly escape punishment, the sentence is approved and will be duly executed at Fort Columbus, N. Y., to which place the prisoner will be sent under proper guard."

The approval of the sentence by Gen. Brooke is a final disposition of the case. No appeal can be taken and the sentence will be carried out.

### THE GRAND JURY.

Late Monday afternoon the grand jury which has been in session more than four weeks, went into court and made a partial report. Twenty true bills were reported and seven not found. Among the latter was the case against Emma Goldman. It was found impossible to convict her, except in a general way, with the attempted assassination of Chief of Police Brown at Barre last December.

The grand jury resumed its sitting Tuesday morning and immediately sent out subpoenas for forty witnesses. No one is re-shuffled, but rather to predict when their final report will be made.

Enrico Milino of Barre was the first one to be brought in under indictment. He is charged with adultery. Bail was fixed at \$1000, which was furnished by Carlo Merlo of Barre.

Dr. J. A. Dow of Topsham, who was indicted for perjury, will be brought in this afternoon to have bail fixed. Dr. Dow is now under \$2,000 bonds in Orange county for arson. He is charged with setting fire to his buildings in Topsham several weeks ago. The indictment in this case charges him with perjury in making a false statement under oath to the Union Mutual Fire Insurance Co. in which his buildings were insured.

Mrs. Clara Burton Reed.

News have been received in this city of the sudden death on Monday, Oct. 1, of Mrs. Clara Burton Reed, of Cambridge, Mass., of Mrs. Clara Burton Reed, wife of George B. She was a member of the Unitarian church, and had three children, Mary, the eldest, married and living in Reno, Nevada; Miss Grace and Thomas who reside at home.

The stockholders of the Ogdensburg and Lake Champlain railroad met at Ogdensburg, N. Y., on Monday afternoon for a consolidation of the various lines controlled by the Rutland railroad company, all but ten of the 44,000 shares voting. The lines affected are the Rutland Canadian Railroad, the Bennington and Rutland, and the Ogdensburg and Lake Champlain.

The new company has been incorporated and the amalgamation takes effect on Monday. The design in putting all branches under one management is to increase the efficiency of the lines and lessen operating expenses.
